## Introduction

Welcome to a collection of PenisHealth™ testimonials which we have built up over the years the program has been online. This e-book shows some of the gains and opinions of many of our satisfied customers.

We know that most people want to see proof that a program works before they invest their hard earned cash and that is exactly what this document should do – fill you with the confidence that natural penis enlargement is possible and that you are not alone in your quest.

## Written Testimonials

### Daryl, Australia

"In 2003, I had viewed some televised footage on successful Penis Enlargement surgery and whilst surfing the net on the subject, stumbled on the penis-health website."

"I absorbed all the info on the whole concept and mechanical means of PE. I measured my starting stats correctly and learnt the exercises and routines and commenced PE in September 2003."

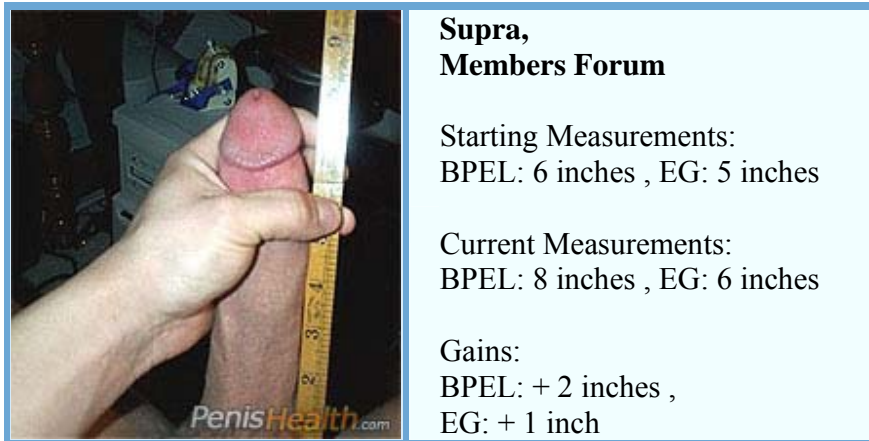

"My starting measurements were BPEL 5 7/8" (NBPEL 4 S " approx) and EG 5 1/8" My flaccid size was an embarrassment at around 2" length and 4 s" girth."

**"I was extremely amazed when the results occurred."**

"I had been doing the exercises religiously for about 5 - 6 weeks and only noticed flaccid gains and a small bit in EG and EL, ( although harder erections and a huge increase in horniness were noticed within the first week), then I had a growth spurt and 1/2" literally appeared in a week."

"To date, My statistics are as follows: BPEL 7.3" ( 6 j NBPEL) x EG 5 s". My flaccid size is great but still varies on occasion according to conditions - around 5" - 6" length and 5 1/8 girth."

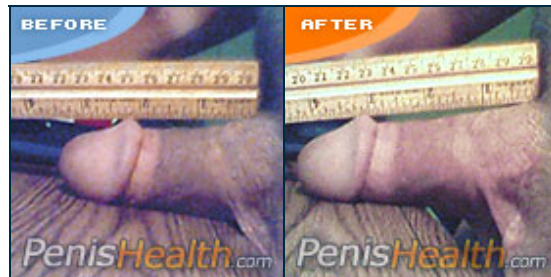

### Shadow1, Members Forum

"I have to say I was doubtful about being able to enlarge my penis through simple exercise, I was wrong. It's been a full year of a dedicated exercise program and patience"

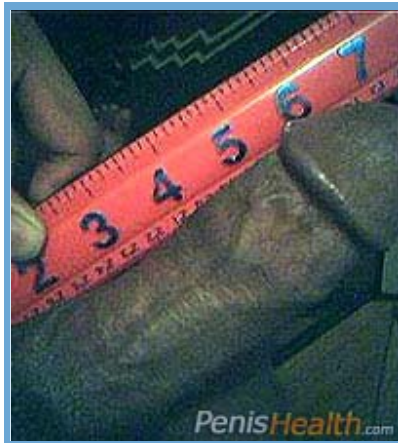

"When I started the program on Penis-Health I was just below average in length and girth(5.75"L and 4.75"G)"

**"I am now a half an inch longer,  
and an inch bigger in girth."**

"Through the program my erections have become stronger and I maintain it for a longer period of time. My wife has commented on the difference and we have sex a hell of lot more, although I couldn't complain before!"

"I've also been able to cure the weak bladder I'd had since I was a kid with the kegel exercises described. I'm a lot more confident in everyday life and hold my head high(pun intended). Thanks to Penis-Health and all the support they provide."

EG: + .2 inches

### **Jareth, Member Forum**

"I have gained over an inch in erect length, and actually consider myself to be a hard gainer when it comes to length gains. My erect girth is a different story, I have gained nearly an inch in erect girth and that is extremely good to say the least!"

"I notice my dick changing, more veins, and total seperation from my two side chambers, so pronounced I have a valley running up the middle of my dick where the two chambers seperate."

"I educated myself greatly and helped this site out dramatically with my questions, and responses over the last two years, and they rewarded me with the title of being a "Moderator". I am very excited to continue helping out the members here, and the non-members looking for guidance."

**"PE is an issue I will be associated with for the rest  
of my life PE works, simple as that."**

### **Jethroll, Member Forum**

"After suffering from high levels of stress I actually managed to half an inch of penis length. It was very annoying because I was barely 20 years old!"

"What's more it seemed to get worse, my ertions weren't as hard and I became so sensitive I ejaculated a bit almost any time I got a hard on. Looking at my erect dick failed to inspire any kind of sexual confidence in me whatsoever. Sometimes I could almost hear a girl snickering at my penis in the back of my mind"

"Then one day I discovered penis-health from a totally random search on the net. I was a

bit skeptical about increasing the size of my dick but I knew that my dick could become stronger and healthier. After reviewing many sites I chose penis-health because of its sterling reputation, it's quality videos and its free consultation."

"I'm very pleased to tell you that I've already regained my lost length plus a little extra! Even more importantly I've overcome my sensitivity issue and"

**"my erections are stronger, longer lasting and fuller than they have ever been before!"**

"Penis-health has helped my penis discover a veritable fountain of youth. When my dick gets hard nowadays it's like a rock and I've got more trust in my sexual ability than I've ever had before. Whenever I look at my erect dick I feel confident enough that I could please even the most uptight women"

"What an amazing difference after 4 months, I can almost hear the girl moaning about how much she loves my dick."

### **Substance, Member Forum**

"I started when I was 19 I always was critical of my penis size and after one girl kinda made a joke about it I decided to research on the web on how to increase the size of my penis. After a few weeks of research I found that Penis-Health.com was the best for natural penis enlargement and I decided that I would try this system out."

"This was about a year ago that I started these exercises. Nevertheless, we will start from the beginning I started the exercises very basic at the 7-10 minutes. This allowed me the chance to really get use to the exercises and with the instruction videos and pictures penis-health was extremely helpful with my progress."

**"When I started my program I measure 6 inches on the button and just over 5 inches on girth."**

"The reason why I pointed this out was that I dreamed of a larger penis which meant a massive gain within my length potential. However, at the same time a little girth wouldn't be the worst thing in the world ."

"Okay back to my story. After the first month of doing the exercises 5 days every week I noticed that my penis was growing particularly when flacid. Therefore, I decided to measure my penis and sure enough my dick had grown a half inch in length and stayed the same on girth. With this achievement I began to get extremely happy."

"Now onto the next while. I will speed it up because if i were to go through every month it would take quite a while. Alright after about 8 months straight of doing the exercises I measured once again"

**"I had grown an inch in length and 1/2 inch in girth and now was standing at 7 inches in length and 5 1/2 inches in girth."**

"After I did this measurement I decided to take a few months off. After returning to my exercises I measure once again and my gains were exactly the same and now I am continuing my gains with a gain of .5 inches to my length to make me 7 1/2 inches after my first two months back on the programme."

"In conclusion, to all the disbelievers on penis enlargement just ask me and I will tell you that it works. Now with my new penis I have an amazing gf and a self esteem that I thought I would never have."

"Duration: 2 months  
Starting length: 4.7 inches  
Length now: 6.4 inches  
Length Gains: 1.7 inches!!

Starting girth: 4.5 inches  
Girth now: 5.1 inches  
Girth Gains: .4 inches !!"

"Your exercises has given me confidence and real gains that my fiance and I can see. I am asian and I have always been trying to overcome the stereotype of small asian penises. With PSP's and the exercises my gains are very real and have changed my life. I go to the fitness club and I no longer have to be timid about my body. I have the confidence I have been longing for all my life"

**Sagar1\_isbig, Member Forum**

"I used penis health a natural system to fullfill my dream to get bigger and healthy penis."

"ORIGINAL LENGTH WAS 4.75"  
NOW 5.90" GAIN ALMOST MORE THAN 1" IN 8 MONGTHS.  
ORIGIANL GIRTH 4.25"  
NOW 4.85" GAIN ALMOST .60"

"I knew that I am not happy with my size and did some research and went to doctor. She told me go and see the urologist. During search for urologist in my area through internet I hit the penis- health site and read it a lot about it. Eevery night I spend hours and hours on this site."

**"After 2 months I saw the big changes and my wife felt some pain due to length and girth and was happy."**

"Now I am almost 6" and very clsoe to 5" in girth. I would highly recomond this to anyone who is intrested in penis gain."

"Another thing I want to add here that my concern was my personal height. Individual height has nothing to do with that. As a matter of fact today I am bigger some of the men who has 6' height. I am only 5'5"."

"Good luck to those who are intresten in penis gain."

"My journey to Penis Enlargement began without even thinking about my size. How come? I was born with a full phimosis, which means pulling the foreskin over your head is impossible, in flaccid as well as in erect state. So, this held me back from approaching women."

"I stumbled across "average penis size" charts, which let my confidence fall to a new low because I measured my penis for the first time:

EG: 11.00 cm at best

BPEL: 16.6 cm at best

then, I furiously looked for possibilities to increase my size, and looked at so many different opinions and possibilities."

**"What followed was probably the happiest time of my young life."**

"I visited the site, and away I went. Like Daz, I followed my routine religiously, and saw instant results. Trying out all the exercises and assembling individual routines a few months later surely took its time, but it paid off!"

"Apart from the exercises, by far the most precious and valuable thing about Penis Health is the forum, in so many ways. It gives you so many little tricks and hints that can make all the difference in the world. It can boost your confidence when other members tell you how they had the same problems and how they solved them; and it can show you custom-made exercises that will work wonders."

"Right now, my stats are:

EG: 12.4 cm

BPEL: 17.8. cm

And it feels incredible. The dream of having a healthy, big penis is not only possible, it's within my reach. And it's not only the fact that I have indeed a bigger dick that makes me ecstatic, it's the effect on my normal life."

**"I don't have that tension anymore when talking to women, and my confidence went through the roof."**

"I firmly believe that one day, it won't be a taboo anymore to talk about enlarging your penis, just like getting breast implants became almost a hobby for women. The first thing people have to realise is that it is indeed possible.

Yes, it is POSSIBLE!"

"Right now I am in a relationship with this girl that I plan on marrying in the next few years. I have discussed this issue with her several time over the time we have been going out."

"She has always told me that size does not matter. So I asked her how she would feel if I enlarged my penis. Her answer was you are just fine with the size you have now I don't think you need to be any bigger, but it's up to you what you want to do."

"I didn't think I was that big to start.(6 1/4" bpeI by 6" girth) So over the next 5 month journey of enlarging my penis. I had noticed several changes in me and my partners sex life. When we first started having sex we wouldn't do it that often and when we did it was like she didn't like it that much. She would not moan or anything."

"After a few months of being a member of penis-health I had notice a few thing had changed in our sex life. We were having sex a lot more often. She was enjoying it a lot more. She would moan and everything else. Sometime she gets so loud I need to put something over her mouth."

"And now after 5 month of being here we are having sex almost every day of the week. It's like she never wants to get off of me. You know she told me she didn't think size mattered but to be honest with everyone I think it had a lot to do with our relationship. Even though I know she would have never cheated on me, But I think it has defiantly change our sex life."

**"It just keeps getting better and better as I get bigger and bigger. So does size matter? Yes because I think sex has a lot to do with a relationship."**

"SIZE DOES MATTER"

"I am a penis health.com member"

**"Before starting this program my penis measures 4.9" in length and 4.5" in girth  
now it is 6" in length and 5.1 in girth"**

"I am not using any pills actually i cant buy the enlargement pills because of i dont have a credit card. I joined the penis health .com by sending the indian currency on mail"

"It is slightly costly to me but it is worked for me before i was done some free stuff from a site but it is not worked for me, but penis health .com having some good exercises that worked for me"

### **Wolf, Member Forum**

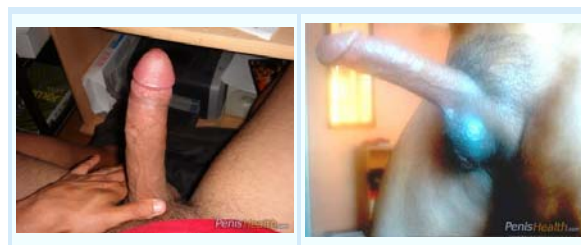

"I wish the information about penis enlargement had been available twenty years ago. I am now middle aged - and have always felt a little embarrassed about my small penis when flacid (although its erect size was reasonable)."

"After just three weeks of penis exercises I am beginning to see astonishing gains in flacid length."

**"Instead of the shrivelled up slug I am used to observing, I now see a long muscular looking penis that hangs and swings"**

"I am so amazed and pleased that I have kept nipping off to the bathroom to have a quick look to check that it really is still as long - and it is. Thank you penis-health. The psychological effect of having a good sized penis is enormous."

"It is not just a matter of no longer feeling shame in the locker room at the gym, but also a more subtle and pervasive feeling of being more adequate as a man - and no matter what one's achievements in the world, our basic biology and evolutionary history means that penis size matters - it matters both to women and to men."

## Naturalgains, Member Forum

"My plan is to follow the program and advance to the next level of intensity every four weeks. As the health, size and strength of my penis grows, so will the intensity of the workouts."

"So far, I can tell a Huge difference! Visually, I can tell my penis looks fuller, thicker, and healthier and more veins and vessels are visible."

### "My erections are harder, more frequent and last longer"

"For the first time in my life, I have hope. Hope that there is Something I can do about the size of my penis and with hope, confidence follows."

"Through patience and dedication to the workout programs, it's my hope that my efforts will pay off. Though I am very pleased with my results thus far, I'm open to the idea of supplementing my workouts with ProSolution Pills. From what I have read, ProSolution Pills would promote blood flow and speed up recovery. Not to mention, increase my sex drive. I'm confident that supplementing my workouts will speed up my gains."

"Several years ago during a conversation about penis size, a woman told me, "It's not the size that matters, but the motion of the ocean, But if you have both, you can part the Red Sea". Since then, I have confirmed this to be true on several different occasions. Mostly depending on the woman, but for the most part it's agreed upon that SIZE DOES MATTER!"

"Until recently I thought the best I could do was to perfect the "motion" and that average size was something I would just have to deal with. Now, I feel I can have Both and my excitement level is indescribable. I constantly find myself daydreaming about what it would be like to quote "part the Red Sea", to have Both size and stamina."

"With the workouts provided by Penis-Health.com and the supplementation provided by ProSolution Pills, I believe that those daydreams can become reality."

"I always felt insecure of my penis because I always felt that it never quiet lived up to the "African-American" sterio-type. And since I finally reached that age where I can buy my own personal products over the internet, I gave the pro-solution pills a chance."

"At first glance of the website I assumed all I had to do was swallow a pill once a day for three months and I'd reach that proudly "African-American" sterio-type. However I was wrong and found out that you actually had to do exercises; I admit I was aggravated at first but I went through with the exercises manipulating them to fit my desire."

"So far I've been PEing for 3 weeks and have been using the Pro Solution pills for 2 weeks; *The part you've been waiting for...*"

**"I have gone from 7.0" erect to 7.5" erect!"**

"I'm bigger than most of the peoples' here goals in just two weeks. When I measured myself doing a PE straight foward stretch exercise today I measured 8.1" so I know I'm still getting bigger. I have a vision of reaching 9"+. Wish me Luck!!!"

"Love for Latvio at it's absolute highest. They are *the way forward* I was moving someplace new and I know that whenever I go somewhere will meet girls."

"Here is what is interesting, I started taking pills for about one month with no PE exercises. They made me feel really good bout myself because of the better hang and harder erections. Then vuala I saw the forum. I was supposed to be doing PE."

"So I got with the power curve fast and begun. Now here is what is really crazy for me, my first measurements as you can see were not the worst ones. I in all honesty could swear that there is no way I would of beat myself up all my life about that issue if I felt as good and looked as good as I did then."

"So I was on my way now, religious about my work out and PSP three times a day through all of January. Never missed a day scheduled for PE and at the end of the month I had made a 1/4 inch gain."

**"Putting me at a solid 6 inches nbpel. I was blown away, it was exactly what I always wanted"**

"Six inches solid, I was motivated, positive and growing. I had seen real gains incredible."

"Now in february I was ready for the challenge to keep it up, I improved my routines for length and kept up the work. As of last measurement March 7th I gained another 1/4 inch and some girth. My nbpel is 6.25 and bpel 6.75 Unreal but true. I should be at my 7 inch nbpel by summer with 6 girth. That will be the future."

"Now since the night I was up until 5am ordering I have gotten a long term girlfriend, started doing positive affirmations, I am doing exercise, and loving life. It's not that my life was in shambles but what has been provided to me has affected me in innumerable intangible ways and the one aspect that brought me here beyond my expectations."

"I've been using Penis Health along with Pro Solution Pills for exactly 2 months now. I started just 3 weeks after my 18th birthday. Before using both of the products and exercises I thought I was average but I knew I wanted to improve."

"Before starting I measured 5.75 inches in length and 4.5 inches in girth. I have to admit I was skeptical about any penis enlargement methods, but I researched and decided that Penis health and Pro solution looked to be the best. So I gave them a try."

"After 2 months on the program I can say I have noticed a big change. I have gained .25 inches in length and .5 inches in girth. While I know these aren't huge gains, I am continually making gains and at this point I am fully confident I could gain at least an inch in length and another half inch in girth."

**"Besides the gains, my erections have become rock hard now"**

"I used to think that I was pretty good in that department, the one of hard erections. But now after using the program for 2 months, I have solid rock hard erections. I am excited

about the gains I have made, and I am looking forward to future gains I will make using the program."

### **Turtle, Member Forum**

"When I first joined Penis Health I was looking for exercises that would help me with erections. I didn't need viagra, but I thought that exercises made sense for a man of my age, mid fifties."

"I thought that all of the hype about increase the size of your penis was a bunch of marketing bullshit, but I thought that I would try the suggested routines. I wanted to do the exercises in any case so following their suggestions made sense."

#### **"I was shocked! The PE actually resulted in gains"**

"My monthly gains were small, between 0, 1/8, and 1/4 inch per month for length. The bottom line is that after six months my BPEL has increased by one inch. EG is a little slower, but I have still gained 3/8 of an inch. Needless to say that I am now a firm believer."

"I started out at 6.75" Non-Bone Pressed Erect Length and 5.5" in girth. Despite some claims saying this is 'above average' I felt that it was nothing spectacular. Studies have shown that 90% of men are between 5"-7". I wanted to be above that 90%. I have been on this program for about 4 months and"

#### **"I have gained 1/2" to my Erect Length and 1/4" to my girth"**

"This has been a big boost of confidence seeing I break past the 7" mark and I feel thicker. I strongly recommend this because it is healthy to try and improve yourself."

"Not only does your size increase, but the overall healthiness of your penis increases as well. I experience stronger, harder erections that is more veiny for added friction, and I LOVE it."

"Not to mention I can now 'hold back' my ejaculations so I can experience multiple orgasms and continue sex with my partner so she can have many too."

"I have to really thank the folks at Lativio and all the great members here. I, like many

others, came here with only suspicion in mind. I had been frauded before in other products, so I kept a wary eye. But I figured, the longer I waited on starting, the more time was being wasted. For only \$50 and a incredible 6 months money back guarantee I thought I didn't have anything to lose, and everything to gain."

"In only 8 weeks I have gained half an inch of length and half of an inch in girth. I was astounded by how quickly the results came in. I thought that I had to at least be in the program for 6 months in order to see results!"

**"After 8 weeks, I have gained a total of an inch"**

"And after only 2 months, I have seen the results that many other users have been saying they have achieved. I am totally hooked on penis exercising now and can't wait until I reach my goal of another half inch in length and another quarter inch in girth by the next few months."

"I can barely go a day without doing some kind of penis exercising in the shower, in front of the computer, wherever I have time and privacy. My girlfriend has been pleased and shocked herself at the gains I have achieved."

"The added benefit to all this was that not only was I longer and thicker, but my erections have never been so hard. I even bet my gf that I could hang a couple of towels on my erection. What I won from the bet I cannot disclose!"

"Just keep in mind that you are not primarily doing penis exercises for others, but for yourself (not saying they won't enjoy the results lol). My flaccid has increased by an inch and so I'm no longer shy when in the lockerroom at the gym."

**"I feel more confident in the bedroom than I ever had been before"**

"Now I have been diligently posting my results and my routines to all the other members of Mens-Network.com and have been giving out advice to others who haven't been so fortunate as I have been."

"What keeps me going is knowing that its possible to get longer and wider, something people have been telling was not possible and that I should just be satisfied with what I have. Its been a great experience. I have to thank Lativio for such a wonderful product and all the many people who have helped me open my eyes."

"It'll be a great feeling when I reach my short term goal, and even better feeling when I'm on my way to my long term goal. However long it takes."

"I never really paid a lot of attention to my penis size until about a year ago. I measured in high school and was happy with what i (thought i) measured."

"Apparently i measured incorrectly because upon measuring again sometime last year after reading on how to PROPERLY measure, i realized i was on the low... LOW side of average. I didn't want to be on the small side of average, no way. Not when i COULD have more."

"I honestly took the mens-network forum and the theory as a whole for an elaborate Hoax. After i came to the conclusion that no one would really spend as much time as it would've taken to pull such a prank, that the forum, the methods and the products were all real i decided to start informing myself."

"I have to be honest, i got pumped up about it, ordered 2 months worth of ProSolution Pills and started the exercises. after 5 weeks i'd lost motivation. I really don't know why because i'd already seen 1/4 inch gain in erect length and longer flaccid hang."

"I recently began again and have seen another 1/2 inch gain in erect length as well as even longer flaccid hang and i'm starting to notice gains in girth!"

**"I've gained 3/4 of an inch in erect length and  
a little over 1/8 of an inch in girth"**

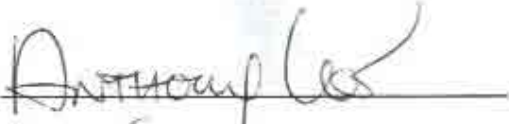

"Total time performing exercises and taking prosolution pills so far is around 2 months. It seriously is ridiculous how easy it is to have something that is so valued in today's society. Thanks to these methods i'm well on my way to having something that really is PRICELESS!"
